

October 7, 2015

Dear OASCO,

Thank you so much for your contribution to our field trip! Our 4th grade classes went to McFarland Park for a service-learning trip. The students helped to hand-harvest seeds of various kinds of prairie plants. We also removed invasive plants such as honeysuckle from the wooded areas.

Our classes discussed the importance of volunteering. The Story County Conservationists frequently visit our school for educational programs. It was very rewarding to be able to do something for them in return!

We are extremely thankful to be able to participate in activities and programs like those offered through Story County Conservation. Thank you for your support which enables us to participate in activities such as these!

Sincerely,

Mrs. Meinerts and Mrs. Fricke's 4th grade classes
